

**An Authorized Milling Partner is a milling centre with coordinated processes approved by Ivoclar Vivadent. You benefit from:**

- **high-precision restorations** with an excellent surface quality
- high **quality standards**: materials and restorations are scientifically tested
- coordinated **products and systems** to finalize the restorations

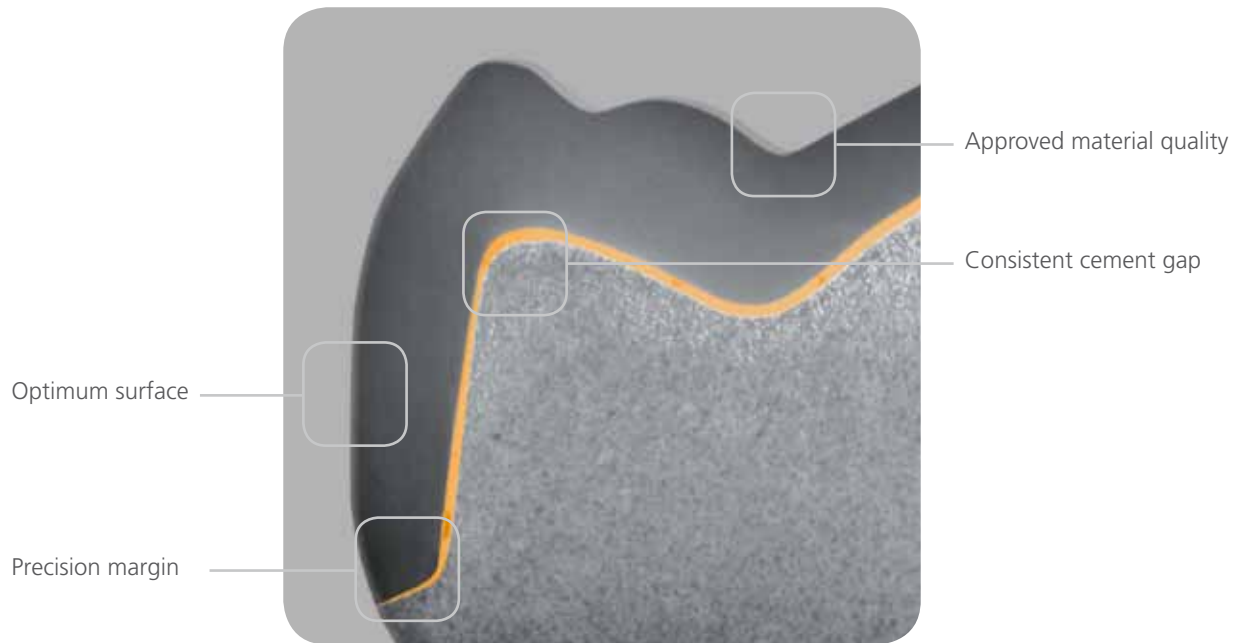

The changes which are taking place in the dental industry create room for a wealth of new **opportunities**. Modern technologies and fabrication processes, automation and **innovative materials** shape the way in which work is done in the dental practice and laboratory. Why not make use of the potential offered by the global partner network and experience the wide range of materials from Ivoclar Vivadent in an impressive **quality** from your **Authorized Milling Partner?**

A **restoration** can be special in every way.  
If it is created in a **specialized way**.

The digital process chains implemented at the Authorized Milling Partners are coordinated with the materials and their properties. Specialized on developing and manufacturing dental materials, Ivoclar Vivadent knows the specific material properties and the interaction between the materials and the processing techniques. As a result, you are offered proven quality for your **clinical success**.

**Outstanding quality** down to the smallest detail.  
**Find out for yourself.**

You can take advantage of a wide range of Ivoclar Vivadent materials and benefit from highly esthetic restorations in an outstanding quality from your Authorized Milling Partner.

**IPS e.max®** – an all-ceramic system for every indication

**IPS Empress® System** – proven all-ceramics for single-tooth restorations

**Telio®** – everything (for) provisionals
